

# SKAPHOS

Our performance aims to immerse the audience in a dark and immersive atmosphere. Lighting should enhance this ambiance without overexposing the stage. Please favor a dim and mysterious atmosphere, with lighting coming mainly from back and side positions.

Light blue & green as base colors  
(other colors are welcome as long as they fit the general mood)

**Front lighting** : a minimum is required to make our faces visible, but **the stage must never be fully lit like a fairground show**. Avoid any overly bright or cheerful atmosphere. No constant or strong front wash, just enough to maintain a dark but readable presence.

**Strobe** : yes, allowed freely during intense parts of the music

**Fog / haze** : yes, highly recommended

**Blinders** : recommended

- ✓ Backlights
- ✓ Sidelights
- ✓ Silhouette lightnings

- ✗ Frontlights (only a minimum)
- ✗ Stage fully lit
- ✗ Overly bright
